

anunta

What's better than winning?
Your clients winning!

We are proud to share that two of our clients, have won InformationWeek's EDGE awards for their desktop virtualization initiatives.

EDGE is an initiative by InformationWeek to identify, recognize and honor end-user companies in India that have demonstrated the best use of technology to solve a business problem, improve business competitiveness, and deliver quantifiable ROI to stakeholders.

And that's exactly where Anunta's ADaaS wins. Our virtualization goes beyond reducing time taken to provision & patch to delivering improved end-user performance and productivity. In other words, we ensure IT initiatives deliver business value.
